The Central Credit Register

The Central Credit Register is a national database that stores information on consumer and business loans where the loan amount is €500 or more. It is used to generate credit reports, which borrowers and lenders can access.

Borrowers can access their credit report free of charge any time (subject to fair usage) to see what information about their loans is stored on the Central Credit Register.

Lenders can access a borrower's credit report to help them when making decisions about loans and loan applications. Lenders must request a borrower's credit report when considering a loan application for €2,000 or more, and may do so if the loan application is for less than that. In addition, a lender may obtain a borrower's credit report:

- if the borrower has asked for a re-structure of an existing loan;
- if there are arrears on an existing loan;
- if the borrower has breached the limit on a credit card or overdraft.

A footprint is created each time a credit report is accessed. This includes the name of the enquirer (such as the lender), the date and the purpose of the enquiry.

The Central Credit Register supports the Central Bank's obligations and functions to protect consumers, supervise the financial sector and ensure financial stability.

To enhance transparency around the operation of the Central Credit Register, this document provides information on:

1. Central Credit Register services by borrowers and lenders, and performance against agreed service standards;
2. A high level breakdown of the volumes of enquiries by lender type and product type; and
3. A high level breakdown of credit agreements by product type as reported to the Central Credit Register.

1. Services to Borrowers

Table 1: Service Standards for Borrowers[1]

Service	Target	Performance				2026 Total Requests Completed (YTD)
		Jan-Mar	Apr-Jun	Jul-Sept	Oct-Dec	
Requests for credit reports	85% completed within 5 days	95%	98.6%	99%		44,167
Requests for amendments	50% completed within 20 days[2]	81.4%	70.3%	78.4%		556
Requests for explanatory statements	85% completed within 5 days	100%	100%	97.4%		251

In Q3, service standard targets were exceeded for all borrower requests. We continue to see a rise for requests for credit reports year on year, with a 52% increase when compared to the same period in 2025.

Table 2: Public Contact Volumes	Jan-Mar	Apr-Jun	Jul-Sept	Oct-Dec	2026 Total (YTD)
